# Pippita Bennett - Stitched in Place

Exhibition dates: September 11th - 22nd, 2024

Opening Celebration: Wednesday 11th September 6-8 pm

Pippita Bennett lives and works on Dharug and Gundungurra Country in Katoomba. She creates stitched landscapes of places she lives in and visits. She gathers bark, leaves and flowers from these places to dye the threads and textiles she works with, gathering added inspiration from thrifted materials. Her dyed fabrics are soaked with the memory of the place of the place they were dyed: similarly thrifted fabric holds memory of its past use.

Pippita works wherever she finds herself: at home, in wild landscapes, in cars or trains; allowing her needle to trace the line of a branch, rock or simply follow a thought. Stitches are her words: a journal of place and time, where memories and images overlay each other as a landscape of life.

Pippita studied art at the Tin Sheds as part of her architecture degree at the University of Sydney. She then worked as a primary school teacher where art making was central to her teaching practice. She is currently studying a Master of Art Therapy. Pippita is happiest with stitching in hand, a dog in her lap and cup of tea beside her.
