Carmel Francesca Byrne

Process-driven artist Carmel explores existential concepts and experiences through drawing from life with both figurative and landscape works. This approach is conducive to chaos & accidents where unplanned marks can, with the flick of a pencil, capture a unique gesture or expression, a surprise that is always outside of the realm of full creative control to access an expressive, collaborative act with nature.

In 2024 Carmel's work was exhibited in the Rick Amour Drawing Award, and the Salon des Refusés exhibition. In 2020 Carmel won the Vincent Prize, and a minor category in the Fisher's Ghost Art Award.

Her work has been purchased for art collections including the Stefan Simchowicz Collection, the Mallesons Stephen Jaques Collection, and the Sydney Institute of Technology National Collection. A copy of Carmel's full CV is available for download on her website.

Scratch Art Space Gallery, Sydney
